### What is the Transformation Workshop Week?

Culture transformation based on the fields developed together by the students of the international group during the workshop week. We propose **four thematic blocks: the mental hygiene of cultural work (Katarzyna Renes), director role setting (Marta Miłoszewska), disability (Justyna Wielgus), feminism, queer, ethnic issues (Dominika Laster).**

We invite you to participate in workshops and meetings in an international group - let's change the world of culture together!

### What is the Blended Intensive Programme (BIP)?

It is a new type of short mobility provided by the Erasmus+ Programme where students can learn new skills in an international group. It consists of a virtual and a stationary part. The learning programme is developed by an international team of universities - a project consortium.
