1. RELEVANCE

1.1 Background and general objectives

Background and general objectives

Please address all guiding points presented in the Programme Guide under the award criterion 'Relevance of the project'. Describe the background and rationale of the project.

How is the project relevant to the scope of the call? How does the project address the priorities of the call? What is the project's contribution to the priorities of the call?

1.2 Needs analysis and specific objectives

Needs analysis and specific objectives

Describe how the objectives of the project are based on a sound needs analysis of the call. What issue/challenge/gap does the project aim to address?

The objectives should be clear, measurable, realistic and achievable within the call. Define appropriate indicators for measuring achievement (including baseline and target value).

1.3 Complementarity with other actions and innovation— European added value

Complementarity with other actions and innovation

Explain how the project builds on the results of past activities carried out in the field and describe its innovative aspects (if any). Explain how the activities are complementary to other activities carried out by other organisations (if applicable).

Illustrate the trans-national dimension of the project; its impact/interest for a number of EU countries; possibility to use the results in other countries, potential to develop mutual trust/cross-border cooperation among EU countries, etc.

2. QUALITY

2.1 PROJECT DESIGN AND IMPLEMENTATION

2.1.1 Concept and methodology

Concept and methodology

Please address all guiding points presented in the Call document/Programme Guide under the award criterion 'Quality of the project design and implementation'.

Outline the approach and methodology behind the project. Explain why they are the most suitable for achieving the project's objectives.

2.1.2 Project management, quality assurance, and monitoring and evaluation strategy

Project management, quality assurance and monitoring and evaluation strategy

Please address the specific conditions set out in the Call document/ Programme Guide.

Describe the measures foreseen to ensure that the project implementation is of high quality and completed in time.

Describe the methods to ensure good quality, monitoring, planning and control.

Describe the evaluation methods and indicators (quantitative and qualitative) to monitor and verify the outreach and coverage of the activities and results (including unit of measurement, baseline and target values). The indicators proposed to measure progress should be relevant, realistic and measurable.

4.2 Work packages and activities

WORK PACKAGES

This section concerns a detailed description of the project activities.

Group your activities into work packages. A work package means a major sub-division of the project. For each work package, enter an objective (expected outcome) and list the activities, milestones and deliverables that belong to it. The grouping should be logical and guided by identifiable outputs.

Projects should normally have a minimum of 2 work packages. WP1 should cover the management and coordination activities (meetings, coordination, project monitoring and evaluation, financial management, progress reports, etc) and all the activities which are cross-cutting and therefore difficult to assign to another specific work package (do not try splitting these activities across different work packages). WP2 and further WPs should be used for the other project activities. You can create as many work packages as needed by copying WP1. The last WP should be dedicated to impact and dissemination.

For very simple projects, it is possible to use a single work package for the entire project (WP1 with the project acronym as WP name). (For Jean Monnet Chairs, Jean Monnet Modules and Jean Monnet Learning EU initiatives, it is recommended to use only 1 work package.)

Work packages covering financial support to third parties (⚠ only allowed if authorised in the Call document/Programme Guide) must describe the conditions for implementing the support (for grants: max amounts per third party; criteria for calculating the exact amounts, types of activity that qualify (closed list), persons/categories of persons to be supported and criteria and procedures for giving support; for prizes: eligibility and award criteria, amount of the prize and payment arrangements).

⚠ Enter each activity/milestone/output/outcome/deliverable only once (under one work package).

Objectives

List the specific objectives to which this work package is linked.

As it is recommended in the guidelines to this Application form, for Jean Monnet Module, only one work package is used. Hence, specific objectives linked to this work package are those listed under Section 1 'RELEVANCE'.

1.1 Background and general objectives

Background and general objectives

supports teaching and research in the field of European Union studies worldwide.

By EU studies it is meant the study of Europe in its entirety, with particular emphasis on the EU dimension, from an internal but also from a global perspective. The scope of EU studies can be varied so long as the EU angle is explored.

EU studies should promote active European citizenship and values and deal with the role of the EU in a globalised world, enhancing awareness of the Union and facilitating future engagement as well as people-to-people dialogue.

The Jean Monnet Actions also strive to function as a vector of public diplomacy towards third countries, **promoting EU values and enhancing the visibility of what the European Union** stands for and what it intends to achieve.

The objectives and criteria to apply for teaching and research are described below.

The Jean Monnet “Teaching and Research” actions will:

promote excellence in teaching and research in the field of European Union studies

worldwide; foster the **dialogue between the academic world and society**, including local and state level policy-makers, civil servants, civil society actors, representatives of the different levels of education and of the media;

generate knowledge and **insights in support of EU policy-making and strengthen the role of the EU within Europe and in a globalised world**;

reach out to a wider public and spread knowledge about the EU to the wider society (beyond Erasmus+ academia and specialised audiences) bringing the EU closer to the public.

The actions also strive to function as a vector for public diplomacy towards third countries not associated to the Programme, **promoting EU values and enhancing the visibility of what the**

European Union actually stands for and what it intends to achieve.

Evaluation Summary

Evaluation Result

Total score: 94.50 (Threshold: 70)

Criterion 1 - Relevance of the project

Score: **23.50** (Threshold: 15/25.00 , Weight: -)

The application addresses the relevance criterion well. Only a small part of the proposal intends to meet the objectives of the Jean Monnet action and/or to reach out to priority target groups.

- **The extent to which the proposal meets the objectives of the Jean Monnet action:**
 - o addresses EU Studies (as described in the Introductory paragraph),
 - o fosters dialogue between the academic world and society, including local and state level policy-makers, civil servants, civil society actors, representatives of the different levels of education and of the media;
 - o generates knowledge and insights that can support EU policy-making and strengthen the role of the EU in a globalised world;
 - o includes active outreach and educational work that will spread knowledge about EU subjects to wider society (beyond academia and specialised audiences) and will bring the EU closer to the public.
- **The extent the proposal reaches priority target groups:**
 - o Higher education students of European Union Studies (as described in the Introductory paragraph).
 - o Higher education students who do not automatically come into contact with EU studies (in fields beyond law, economics, and political sciences).
 - o For Erasmus+ Partner countries, the potential to enhance EU public diplomacy.

Criterion 2 - Quality of the project design and implementation
