Expectations/ comments of the Partner Country HEI	
<p>It is expected that this exchange programme will help, in the first place, our Phd students, in the chosen scientific fields, to deepen their research skills as well as their knowledge. That is, it will be an occasion for them to discover another way of doing things in their scientific field. Secondly, it is expected that this exchange programme will be an opportunity for them to enrich their life experience by living, for a while, in a different society with different culture and customs. Such an opportunity will give them the possibility to widen their understanding of the "other" and therefore to accept easily cultural and religious differences.</p>
