

UNIVERSITY OF MITROVICA "ISA BOLETINI"

Prof. Ass. Dr. Ajtene Avdullahi
Erasmus + Office coordinator

History of the University of Mitrovica “Isa Boletini”

Foundations of Higher Education studies in Mitrovica were set up with the opening of the Technical High School in 1961.

The Faculty of Mining and Metallurgy in Mitrovica was established in 1974.

Initially, the studies were organized in departments of Mining, Technology, and Metallurgy, whereas in the academic year 1980/81 the Department of Geology was opened.

Based on the tradition of around 60 years of HE in Mitrovica and unique study programs, the Government of the Republic of Kosovo in 2013, established the Public University of Mitrovica.

The University of Mitrovica in numbers

- 6 Faculties
- 22 study programs at bachelor and master degree
- 150 Academic staff
- 50 Administration staff
- 4243 students

The Faculties in University of Mitrovica

- Faculty of Geosciences,
- Faculty of Food Technology,
- Faculty of Mechanical Engineering and Computer Engineering,
- Faculty of Law,
- Faculty of Economics and
- Faculty of Education

Faculty of Geosciences

Study Programs in Bachelor degree:

- Geology
- Mining
- Material and Metallurgy

Study Programs in Master degree:

- Deposits of mineral raw materials
- Hydrogeology and Engineering geology
- Mining
- Materials
- Metallurgy

Faculty of Food Technology

Study Programs in Bachelor and Master degree:

- Technology
- Engineering and Food Technology

Faculty of Mechanical Engineering and Computer Engineering

Study Programs in Bachelor degree:

- Production Machinery
- Machinery Engineering
- Economic Engineering

Study Programs in Master degree:

- Production Technology
- Informatics Engineering

Faculty of Economics

Study Program in Bachelor and Master degree:

- Business and Management with two streams:
 - Finance, Bank, and Accounting
 - Management, Innovation, and Entrepreneurship

which differ from the fourth semester at the bachelor degree and from the second semester at the Master degree.

The University of Mitrovica "Isa Boletini" in the EU Programme Erasmus+

- 1 ICM project with the University of Applied Sciences Van Hall Larenstein, based in town Leeuwarden, Netherland, in the scientific field of food technology and water treatment.
 - 2 academic staff from Kosovo
 - 4 academic staff from Netherland
 - 4 outgoing students
 - 4 incoming students for practical work
- 2 CBHE KA2 project
 - Innovative Teaching Education in Mathematics with Technological Educational Institute of Crete, Greece in 2018
 - Professional development in higher education: improving quality systems of Western Balkans HE institutions with Riga Technical University, Latvia in 2015
- 5 Erasmus Mundus scholarship (2 in 2015 and 3 in 2016)

Fulbright research project in the University of Mitrovica

Main challenge for application in Erasmus+ projects

- The lack of space and modern equipment as the University was based in the old Trepca factory premises.
- Finding partners...

Erasmus+ application in 2019

- 1 ICM with Istanbul Arel University
- 10 CBHE

Why Erasmus+ partnership with University of Mitrovica “Isa Boletini”?

- The Universities strategic goals for the internationalization of study programs
- Unique study programs
- New and modern campus (with surface 17 hectares) with modern amphitheatres, labs, halls, libraries, parking, dormitory for staff and students and everything required by a modern university campus
- Good location of the University in a quiet area of city nearby touristic artificial lake
- All faculties located within University campus that enables scientific collaboration among all units
- Project office within the University campus with enthusiastic team (professors and students)
- Academic staff with extended business experience

Our inquiries in Erasmus+

- ICM projects
- CBHE projects
- Erasmus Mundus...
